

Connections—The Newsletter of Chapter 52, Columbus and Central Ohio, Society of Broadcast Engineers

It has come to our attention that one or more individuals have been denied registration at the forthcoming I-Video Technologies, **“Communication Technologies Exposition 2017”** scheduled for October 17 based upon their commercial affiliation or association. Since the goals of SBE and SMPTE are education without regard to affiliation, it seems inappropriate to have a SBE-SMPTE meeting where some are denied admission based upon their commercial association. For that reason, there will be no SBE-SMPTE meeting at the Exposition.

In no way is this meant to discourage attendance by SBE-SMPTE members or any others at the Exposition. There appears to be much to learn, interesting equipment to be seen, and a very fun venue for the Exposition.

If you plan to attend, be sure to register and receive confirmation of your acceptance by I-Video in advance of the Exposition in order to avoid any embarrassment at the door.

See the following page for full Exposition information.

COMMUNICATIONS EXPOSITION 2017
