

Connections—The Newsletter of Chapter 52, Columbus and Central Ohio, Society of Broadcast Engineers

**SBE Chapter 52 & Ohio Section SMPTE Combined Meeting
October 24th, 2019
at the WSYX/WTTE/Sinclair Broadcast Television facility
1261 Dublin Road, Columbus OH 43215
Social/refreshments period at 6:45 PM
Presentation at 7:15 PM.**

The topics to be covered include:

A general overview of some of the various TV station frequency repacking activities going on all around the USA, including right here in Columbus at Channels 6 & 28. The principal speaker for the evening (at press time) will be John Owen, our SBE Chapter 52 and SMPTE Ohio Section Chairman. John will also be presenting a unique overview of the 70 Year “Channel 6” engineering history covering key engineering department events at the station such as: the launching of various transmitter plant locations, the installations of network & local live color facilities, stereo audio conversion, the DTV transition, to name a few.

Station Engineering Chief, Ron Taylor and staff will also be invited to update our groups on their current and future repacking activities as well as their plans for launching cutting edge ATSC 3.0 terrestrial TV broadcast service, within the Columbus TV market!

**This will be one meeting not to miss!
Be sure to mark down October 24th on your schedule calendars!**
